

VELFOAM® BRAND PADDING.

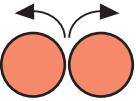

VELFOAM® brand padding is a double faced, soft knitted nylon loop fabric designed to provide thick and gentle cushioning. It is made up of three layers - two outside soft loop layers and an inner foam layer - forming an abundant lightweight and protective cushioning system. The foam centre is made from a pliant polyether-based polyurethane foam (forming a thick robust layer against daily wear and tear).

The outside loop layers are soft to the touch for gentle comfort against the skin. VELFOAM® brand padding has a high cycle life making this not only a durable product, but a cost effective one, that can be used again and again. It can stand up against environmental degradation such as humidity and warmth.

V5 STRAP.

V5 Strap is a soft, non-stretch, compliant, yet flexible thin 5-layered nylon strap. V5 strap 5-layered nylon loop is strong enough to provide support, yet flexible enough to facilitate ease of movement. Both are washable and sterilizable and ideal for disposable products such as strap and body support cushioning and padding. The edges autoseal when cut to maintain its strength, durability and good looks. Cut it the way you want it for a custom fit. The two outside layers are a low cycle unbroken loop ideal for disposable products such as splints and slings or for general purpose. The two inner layers are a polyester-based polyurethane foam that provides soft padding for a comfort fit. The centre is strong enough to stop a concaving effect brought on by a stretching motion for increased strength and durability.

SPECIFICATIONS		
COLOUR	VELFOAM brand® padding	V5 strap
BEIGE	2 inch and 6 inch	25mm x 50mm
PACKAGING:	4.5m rolls	22.8m rolls

HOOK AND LOOP CLOSURE PERFORMANCE	
<p>WHEEL CYCLE LIFE IN PEEL MODE.</p>  <p>MEDIUM</p>	<p>Used in conjunction with a VELCRO® brand standard hook or an ULTRA-MATE® brand HTH 705 hook, VELFOAM® brand padding & V5 Strap will provide strong closure, yet remain easy to open.</p>

GENERAL INFORMATION FOR VELFOAM® BRAND & V5 STRAP PADDING.

Mate with a standard VELCRO® brand hook or an ULTRA-MATE® brand HTH hook to create a sturdy and durable fastening system. Standard VELCRO® brand hook products are reusable & highly versatile. This woven hook when pressed together with VELFOAM® brand padding or V5 Strap results in a secure and adjustable fastening. Simply pull apart and adjust for optimum comfort. Ideal for disposable products such as bandaging and support. ULTRA-MATE® brand HTH hook products are cutting edge technology in fastener formed through continuous injection moulding for a precise and uniform hook shape. Its high cycle life means the ULTRA-MATE® brand HTH hook can be used again and again forming an exact closure each time. It also has excellent low linting properties.

IMPORTANT NOTICE TO PURCHASER

All statements, technical advice and recommendations contained herein are based on tests believed to be reliable, but the accuracy thereof is not guaranteed, and the following is made in lieu of all warranties, expressed or implied: Seller's and manufacturer's only obligation shall be to replace the quantity of product proved to be defective. Neither seller nor manufacturer shall be liable for any injury, loss or damage, direct or consequential, arising out of the use of or the inability to use the product. Before using, user shall determine the suitability of the product for its intended use, and user assumes all risk and liability whatsoever in connection therewith. No statement or recommendation not contained herein shall have any force or effect unless in an agreement signed by officers of seller and manufacturer.
