

## VELSTRAP® BRAND STRAPS

VELSTRAP® brand straps are a reusable, high strength strap utilising a buckle for optimum tensioning.

This is recommended when fast, easy engagement and release features, coupled with additional cinching strength are desired. Uses include:

- Bundling of wires, pipes, ski's, poles and sails.
- Securing knee guards etc.
- Trouser cycling straps.
- Exercise weights straps.

The performance aspects of VELSTRAP® brand straps are determined by many diverse factors including:

- the type of hook and loop tape
- the width and length
- the hook tab in relation to the total length of the strap.
- The type of ring used (*rectangular in the VELSTRAP® brand configuration*).

General performance guidelines as to how VELSTRAP® brand straps will perform in terms of cycle life, shear, tension and peel can be obtained by reference to closure performance table. However, depending on the diameter around which the strap is fastened, the closure performance closure strength of straps can be approximately twice as great. The smaller the diameter, the greater the closure strength of the strap.

SPECIFICATIONS	
STANDARD WIDTH:	25mm.
STANDARD LENGTHS:	300mm, 450mm, 600mm, 900mm.
AVAILABLE COLOURS:	300mm, 900mm - Black and Beige. 450mm, 600mm - Black, Beige and White.
<i>Custom made straps are also available upon request and minimum quantities apply.</i>
